

Finding of Suitability to Transfer

1.45 AC to Peck Iron and Metal CO.
LIC-O-0243

Norfolk Naval Shipyard, Portsmouth, Virginia

In accordance with ASN I&E Memorandum of 22 December 1993, I have reviewed the Environmental Baseline Survey (EBS) and/or related appropriate information concerning this property.

I have determined the subject property is suitable for transfer to Peck Iron and Metal Company. The following statement applies to the subject property:

- ☐ Hazardous substance notice requirements do not apply to this property, since no hazardous substances were stored for one year or more, are known to have been released, or were disposed on the property. As no environmentally significant environmental concerns exist regarding the history or condition of the subject property or nature of its proposed use, it is neither appropriate nor necessary to consult regulatory agencies concerning this realty instrument.
- ☒ Hazardous substance notice requirements apply and must be complied with, which may necessitate certain restrictions outlined in the 09CE Memo of 9 Mar 94 which is attached. However, the property is not contaminated with hazardous substances as certified in the Peck Iron and Metal Co. Ltr of 10 Jan 95 to the Department of the Navy which is attached. The appropriate regulatory agencies have not been consulted concerning this realty instrument due to the nature of the restrictions recommended in the 09CE Memo.
- ☐ This property contains some level of contamination by hazardous substances, but can be used pursuant to the proposed realty instrument without risk to human health or the environment or interference with the environmental restoration process with specified use restrictions which are attached. The appropriate regulatory agencies have been consulted concerning this realty instrument.
